- ⊗ Corrugated 665 to 1000 mm
- ⊗ Length 1600 to 4500 mm
- ⊗ Zinc Coating 80 to 275 GSM
- ⊗ Coil weight 5 MT max
- ⊗ Coil ID 508 mm

Hot Rolled Products (HR Pickled)

We are suppliers of Hot Rolled Products (HR Pickled) to our customers worldwide.

Description & Features : Steel flat rolled product manufactured through the hot rolling of slabs. They are classified according to the following categories: bands, coils and sheets (cut to length), pickled material and clad plate.

Hot rolled material (coils and sheets) can be delivered pickled or unpickled. Pickled material is obtained after coils are processed with hydrochloric acid in the continuous pickling lines to eliminate mill scale. We provide Pickled Material in this Hot Rolled product range according to user needs and requirements.

HOBO PREPAINTED

We are suppliers of Hobo Prepainted to our customers worldwide.

Description & Features : HOB0 Prepainted galvanised steel coils & sheets, Aluminium, Stainless Steel are treated with chemicals to enhance it's paint adhesion and corrosion resistance. Epoxy and Polyester resins are applied by reverse coating technique and baked in sophisticated computer controlled ovens. The result is a product which is highly resistant to corrosion and weathering and has excellent workability, durability.

HOB0 being the brand name under which we proudly cater to our customer.
